EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Cernota on 9/13/06.

The application has been amended as follows:

- In lines 8, 10, 13, 15, and 16 of claim 1 the phrase "rib" has been changed to --ribs-- since more than one rib was previously recited;
- In line 17 of claim 1 the phrase "said weld" has been changed to --said at least one welded—to maintain consistency;
- In line 3 of claim 8 the phrase "members" has been changed to --members.-- (a period at the end of the claim);
- In line 1 of claim 9 the phrase "a projecting" has been changed to --said projecting-- to refer back to the previously recited projecting part and the phrase "piece" has been changed to --piece.-- (a period at the end of the claim);
- In line 14 of claim 1 the phrase "a welded surface" has been changed to --at least one welded surface--;
- In lines 2-3 of claim 22 the phrase "said welded surfaces" has been changed to --said at least one welded surface-- to maintain consistency.

2. The following is an examiner's statement of reasons for allowance: The Salloum reference fails to show the location of the at least one welded surface, the coaxially arranged ribs, and the projecting and receiving parts as recited. Some of the other prior art references show the location of the at least one welded surface with respect to one energy absorbing member but fail to show or suggest a plurality of energy absorbing members including the recited coaxial arrangement of ribs of first and second energy absorbing members and the presence of projecting and receiving parts on first and second energy absorbing members, respectively, as recited. Accordingly, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melody M. Burch whose telephone number is 571-272-7114. The examiner can normally be reached on Monday-Friday (6:30 AM-3:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James McClellan can be reached on 571-272-6786. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
